

United Filtration Systems

Cross Reference Chart for Genie A+

This chart offers a comparison between our GMS Series and Genie A+® products. The separators are cross referenced by mutual attributes and common physical membrane sizes.

Section / Description	Page Number
Membrane Separators Membrane Separators (Genie Supreme Series)	2
Membrane Separators Membrane Separators (Genie Legacy Series)	6
Membrane - Coalescing Membrane with Integral Coalescing Filters (Genies Series 33M & 38M)	11
Membrane Kits PTFE Membrane Discs with Viton O-Rings	13
Membrane Kits PTFE Membrane Discs with Perfluoroelastomer O-Rings	14
Membrane Kits PTFE Membrane Discs for the Genie Legacy Series	15
Tornado / Spin Clean Series Self Cleaning Liquid Cyclone Filters	17
Filter Housings Stainless Steel Filter Housings	18
Filter Elements Disposable and Stainless Steel Filter Elements	20

Our Guardian Membrane Separators (GMS) are designed to be easy to service while providing the ultimate in sample conditioning separation/protection. The variety of product continues to grow with customer feedback. Many assemblies now come with an integral mounting bracket along with all the line connections, (inlet, sample, drain, and bypass) within the base of the unit, making service quick and simple since no connections need to be "broken" for maintenance. Coalescing prefilters are also offered in many models, and as always we can do custom product and manufacture in exotic materials.

Membrane Separators

Membrane Separators are an alternative with 100% Interchangeable Membranes

Viton O-Rings are standard in Guardian Membrane Separators, other O-Rings are readily available.

Guardian Membrane Separators are available in Hastelloy, Monel, and other exotics as well.

Membrane Separators w/ Integral Coalescing Filter

Guardian Separators w/ Integral Coalescing Filters are alternatives for the Genie 33M & 38M, supplied standard with 100% Interchangeable Membranes and Viton O-Rings

Guardian Membrane Separators are available in Hastelloy, Monel, and other exotics as well.

Horizontal mounted Coalescing filters are less efficient than a vertically mounted unit, thus our Separators sit vertically.

Genie 33M Series

Genie A+® Part Number
(1/2" NPT, Max. Pressure: 1000 PSI)

Mounts Horizontal
Element Part Number: 30-5-07CFS
Membrane Code: 33M-50xx

91-4/1011PF-SS

Internal Volume: 27cc

122B4 Series (Mounting Bracket Available)

UFS/Headline Part Number

(5 Ports, Max. Pressure: 5000 PSI)

122B4-50C

Internal Volume: 26cc

122B4-50S

Internal Volume: 26cc

122B4-70K

Internal Volume: 26cc

Genie 95-2 Series

Genie A+® Part Number

95-2/1007CFS-SS

Internal Volume: 17cc

95-2/1007PI-SS

Internal Volume: 17cc

95-2/1011PF-SS

Internal Volume: 17cc

122 Series (Mounting Bracket Available)

UFS/Headline Part Number

122-50C

Internal Volume: 29cc

122-50S

Internal Volume: 29cc

122-70K

Internal Volume: 29cc

Genie 95-4 Series

Genie A+® Part Number

(5 Ports, Max. Pressure: 5000 PSI)

95-4/1007CFS-SS

Internal Volume: 17cc

95-4/1007PI-SS

Internal Volume: 17cc

95-4/1011PF-SS

122B4 Series (Mounting Bracket Available)

(5 Ports, Max. Pressure: 5000 PSI)

122B4-50C

Internal Volume: 26cc

122B4-50S

Internal Volume: 26cc

122B4-70K

Genie 33-3 Series

Genie A+® Part Number
(1/4" Ports, Max. Pressure: 1000 PSI)

130 Series (Mounting Bracket Available)

UFS/Headline Part Number
(1/4" Ports, Max. Pressure: 1500 PSI)

33-3/2007CFS-SS
Internal Volume: 200cc
33-3/2007PI-SS
Internal Volume: 200cc
33-3/2011PF-SS
Internal Volume: 200cc

130-50C
Internal Volume: 90cc
130-50S
Internal Volume: 90cc
130-70K
Internal Volume: 90cc

Genie 33-3 Series

Genie A+® Part Number
(1/4" Ports, Max. Pressure: 1000 PSI)

132 Series (Mounting Bracket Available)

UFS/Headline Part Number
(1/2" Ports, Max. Pressure: 1500 PSI)

33-3/2007CFS-SS
Internal Volume: 200cc
33-3/2007PI-SS
Internal Volume: 200cc
33-3/2011PF-SS
Internal Volume: 200cc

132-50C
Internal Volume: 90cc
132-50S
Internal Volume: 90cc
132-70K
Internal Volume: 90cc

Genie 38-3 Series

Genie A+® Part Number
(1/4" Ports, Max. Pressure: 2000 PSI)

130HP Series (Mounting Bracket Available)

UFS/Headline Part Number
(1/4" Ports, Max. Pressure: 3000 PSI)

38-3/2007CFS-SS
Internal Volume: 50cc
38-3/2007PI-SS
Internal Volume: 50cc
38-3/2011PF-SS
Internal Volume: 50cc

130HP-50C
Internal Volume: 95cc
130HP-50S
Internal Volume: 95cc
130HP-70K
Internal Volume: 95cc

Genie 38-3 Series

Genie A+® Part Number
(1/4" Ports, Max. Pressure: 2000 PSI)

132HP Series (Mounting Bracket Available)

UFS/Headline Part Number
(1/2" Ports, Max. Pressure: 3000 PSI)

38-3/2007CFS-SS
Internal Volume: 50cc
38-3/2007PI-SS
Internal Volume: 50cc
38-3/2011PF-SS
Internal Volume: 50cc

132HP-50C
Internal Volume: 95cc
132HP-50S
Internal Volume: 95cc
132HP-70K
Internal Volume: 95cc

Filter Elements

Genie A+® and UFS/Headline part numbers are 100% compatible and interchangeable.

Disposable Filter Elements

Genie A+® Part Number (Sold in Packs of 5)	UFS/Headline Part Number (Sold Individually)
	12-57-50C Coalescing (meaning moisture & particulate removal) 99.99% efficient at .01 micron
90-50-07CFS	
	12-57-50S Particulate removal 99.99% efficient at .01 micron S= Silica Binder
90-50-07PI	
	12-57-70K Particulate removal 95% efficient at .01 micron K= PVDF/ Kynar Binder
90-50-11PF	
	25-64-50C Coalescing (meaning moisture & particulate removal) 99.99% efficient at .01 micron
30-5-07CFS5	
	25-64-50S Particulate removal 99.99% efficient at .01 micron S= Silica Binder
30-5-07PI	
	25-64-70K Particulate removal 95% efficient at .01 micron K= PVDF/ Kynar Binder
30-5-11PF	

Stainless Steel Elements

UFS/Headline and Genie part numbers come complete with Viton O-Rings

Genie A+® Part Number (Sold Individually)	UFS/Headline Part Number (Sold Individually)
90-50-SS10	SS-12-57-10V 10 Micron with Viton Seals
90-50-SS100	SS-12-57-100V 100 Micron with Viton Seals
30-5-SS10-5	SS-25-64-10V 10 Micron with Viton Seals
30-5-SS100-5	SS-25-64-100V 100 Micron with Viton Seals

UFS/Headline Stainless Steel Elements are readily available in 005, 01, 03, 10, 25, 50, 100, and 200 Micron.
